

This fantastic and versatile autumn milling wheat combines excellent yields with consistent protein levels.

Zyatt is a milling wheat that combines excellent yields and consistent protein levels, making it suitable for a range of milling end uses. It is an outstanding second-year wheat due to its solid disease resistance package, which produces a very versatile milling wheat.

- Early maturity wheat, provides consistent grain quality.
- High yielding wheat, when combined with a PGR programme, will produce a strong straw to supply high yields.
- Good level of resistance to disease.
- When combined with a comprehensive fungicide programme, will deliver superior grain quality.
