### AUCTIONEERS NOTES:

Carrfields Livestock are privileged to offer this long-established, well-managed, genuine entire herd and young stock. Chris and Helen Brown have owned and developed this outstanding Crossbred and Jersey herd for over 20 years, with their attention to detail in breeding and herd management clearly evident in this, their final offering, having decided to exit the industry and sell the farm.

Due to a challenging winter and spring, all cows have been milked once-a-day this season, resulting in a notably low empty rate while maintaining excellent udder structure, testament to the Browns' astute breeding programme. These cows have been milked twice-a-day in previous seasons and will readily adapt to any system going forward. Milked through a rotary shed, this elite herd has never been offered for sale in the paddock and is highly recommended to purchasers seeking quality Jersey and Crossbred cows, in-calf heifers, or R1 heifers. Please note that weights for the 2025-born heifers will be available prior to the auction.
