SALE CONDITIONS

CONDITIONS OF SALE

In accordance with the NZ Stock & Station Association Auction Terms and Conditions, the following general conditions apply to this auction where applicable.

FEMALE GUARANTEES

1. Every female shown as bred on a certain date, except any which may have been served within six weeks of sale, is guaranteed in-calf. This guarantee expires 28 days from the sale date.
2. Where a sale catalogue specifies a calving date and the resultant calf is not acceptable for registration by the MINDA service of the Livestock Improvement Corporation (LIC) or by the relevant Breed Society because the calf is born eleven days or more either side of the specified calving date and the paternity is not able to be verified the seller shall refund 25% of the purchase price plus GST direct to the buyer. This clause 2 does not apply if the sale catalogue states that a bull was pastured after AB ceased.
3. Where a veterinary certificate is supplied at the date of sale certifying the female as being in-calf, no further liability will fall on the seller subject to liability under the other clauses contained in the Conditions of Sale. The buyer has the right to retest at their own expense before delivery is made from the place of sale.
4. Where a female is offered for sale as being in-calf, without a supporting veterinary certificate and the female is subsequently proved to be empty, the buyer has the right to return the female or carry out such disposal as the seller may instruct and the seller will refund direct to the buyer the purchase price plus the return transport costs.
5. Yearling heifers sold as unmated are sold with the guarantee to breed. The term breed shall constitute producing a calf, dead or alive. Should the heifer fail to produce a calf by the 31 December 2027, the seller shall refund in full the purchase price direct to the buyer.
6. In the case of a calf or yearling heifer being flushed for embryo transfer, either with or without success, all guarantees become null and void.
7. Where any female sold as being in-calf proves to be carrying a mummified calf, no liability will fall on the seller.
8. Any animal which is sold as in-calf but subsequently aborts the foetus after delivery is the responsibility of the buyer and no liability will fall on the seller.
9. Any claim to the auctioneers must be accompanied by a veterinary certificate.

SALE CONDITIONS

GENERAL CONDITIONS

- **Delivery:** At the fall of the hammer, livestock remain the vendors responsibility until delivery is underway. This means, once livestock leave the farm gate, all livestock are now at the risk of the buyer.
- **Insurance:** If transit or annual insurance is required the purchaser is responsible to arrange.
- **Instructions:** Buyers must sign all dockets before leaving and have transport arranged.
- **Transfers:** Sellers are responsible for the completion of transfers. No buyer shall be entitled to withhold payments for the delay of transfer information.
- **Cattle for Export:** Breed Society must inspect as suitable for Export Certificates. The seller is responsible for the 15% commission payable on all cattle sold for export.
- **Payment terms:** Three payment options available, please advise sale administrators of your chosen payment terms from the below options...
 - **Option 1:** Full payment due October 20th 2026.
 - **Option 2:** 50% Payment due October 20th 2026, 50% due April 20th 2027.
 - **Option 3:** 1/3 Payment due October 20th 2026, 1/3 due April 20th 2027, 1/3 due October 20th 2027.

SPECIAL SALE INITIATIVE

FUSION YOUTH SHOW INCENTIVE

Fusion is proud to support young Holstein enthusiasts and reward their success in the show ring! Any person aged 21 years or younger on sale day who purchases and personally exhibits an eligible Fusion-prefix Holstein at the New Zealand Dairy Event within the following four years will be eligible to receive:

- **\$200 cashback for a Holstein class win**
- **\$1,000 cashback for a Holstein Championship win**

CONDITIONS

1. The animal must be a registered Holstein carrying the Fusion prefix and purchased through this sale.
2. The eligible youth exhibitor must be aged 21 years or younger on the date of the sale.
3. The youth exhibitor must be personally leading/exhibiting the animal when the qualifying result is achieved.
4. The result must be achieved at one of the next four New Zealand Dairy Events following the sale.
5. Each animal is eligible for a maximum of one \$200 class-win cashback and one \$1,000 championship cashback.
6. Payments will be made to the registered purchaser once the qualifying result has been confirmed.

Backing young people. Celebrating great cows. Building the future of the dairy industry.

VENDOR FOREWORD

Welcome to the inaugural Fusion Edit Sale!

The concept behind the Fusion Edit Sale is simple: every breeding decision presents an opportunity to shape the future. The animals offered in this catalogue reflect the evolution of our breeding programme and the values that continue to guide it.

Based in the Manawatu, our breeding programme is built around a balanced and sustainable approach to dairy farming, where genetic progress is matched with profitability, longevity, fertility, and functional type. While genomics remain an important tool, our breeding decisions are equally guided by proven cow families, structural soundness, production, and long-term performance.

Over recent years, strong reproductive performance and a focused breeding programme have resulted in more quality heifers entering our herd than we have capacity to retain. As our breeding programme continues to evolve, this sale provides an opportunity to access cattle that have played an important role in our journey. Some originate from cow families that have been exceptionally successful for us, where we now have multiple family members and are able to share that genetic depth with other breeders. Others were added to our herd because they offered qualities we valued at the time and are now being offered as our breeding objectives continue to evolve.

Whether your focus is production, cow families, type, genetic merit, the show ring, or building the next generation of your herd, we believe this catalogue offers opportunities to suit a wide range of breeding objectives, from commercially focused cattle through to future donor prospects and show-ring contenders.

We are grateful to the supporters, industry partners, sale partners, and fellow breeders who have supported Fusion Genetics over the years. Your encouragement, confidence, and shared passion for genetic improvement have played an important role in our journey and helped make this sale possible.

Thank you for your interest in the Fusion Edit Sale. We look forward to welcoming you on 1 October 2026, and wish all buyers every success with their purchases.

Sincerely,
Ron, Amy, Ollie & Benji Baker - Fusion Genetics

AGENT FOREWORD

Striving for excellence is something that the team at Fusion have always done. That is shown in their extreme production achieved on farm, fantastic show and on farm results to go along with some very impressive classifications. Every time that I have visited the Fusion herd I have been ultra impressed at the consistency amongst the cows and the pure dairy-ness that is on display right throughout the herd.

Not only do they strive for excellence in their farming careers, Ron and Amy are extremely generous and kind people. They always have an open door for anyone needing a place to stay and always welcome you to come for a look around their pride and joy - their herd of Holstein-Friesian cows.

In this catalogue you will see extreme production in both the cows that are selling and in the pedigrees behind the animals selling. We have one in milk cow selling that has produced over 900kg/MS in a lactation. In addition to that there is a direct daughter of Larkspur Beemer Libby EX91 who has on one occasion produced over 1000kg/MS in a lactation.

The Lilly family has been one of the most consistent families in the Fusion herd. They are extremely high producing cows with outstanding type to go with it. There are multiple opportunities to get into the Lilly family throughout this sale. In addition to the Lilly family there are also some other exceptional domestic families selling such as the Belrose C family, the Tonis, Incas and from the same family as Te Hau Windbrook Cleo to name a few.

Also featured are some of the most famous cow families from around the world. These include the Apples, Missys and Adeens to name a few. The heifer from the Adeen family is also a Grand Daughter of the reigning Grand Champion New Zealand Dairy Event, Glenalla Unix Maple.

Whether you're after high production, show animals, highly classified animals or animals backed by extremely deep pedigrees then the Fusion Edit Sale is for you.

If you can't join us on farm, please tune in on bidr.

We wish you all the best with your purchases,
Luke Gilbert, Carrfields Livestock Ltd.

BUYING ONLINE?

- This sale will be held as a HYBRID ON-FARM auction on bidr (bidr.co.nz).
- There will be online bidding and a livestream of the sale for bidders.
- All online purchasers must register with bidr through an account with a bidr partner agency before sale day.
- For help with signing up or registering, contact the bidr team on 0800 TO BIDR (0800 86 2437) or email enquiries@bidr.co.nz

A heifer who needs no introduction to the show world and will be greatly missed by the Fusion team! When Luke came to visit for his pre-sale inspection, we gave him the choice to pick one 2025 born calf to go in the sale...Maple was pick #1, so here she is!

Please note this heifer has been flushed in August 2026

Hesitant to sell Maple, we gave Luke a second pick of our 2025 born calves... Inca ironically was #2, and now they both sell!

The Inca's are a solid, fail-safe foundation family here at Fusion. Inca was a key member of our 2025 show string.

LEADING PROVIDERS OF ANIMAL HEALTH AND FARM PRODUCTION PLANNING SERVICES

We work closely with clients to identify their animal health and performance goals developing farm-specific animal health programmes and strategies.

Providing tailored advice based on best practice and best science.

Offering a comprehensive range of dairy health services, advice, and support:

- General disease prevention
- Milk quality management
- Lameness management
- Ambulatory response calls
- Herd reproductive management
- Replacement rearing
- Nutritional management
- Affiliated with Tararua Breeding Centre
