Manu 70/21

Manu Poll Dorset

The Manu Poll Dorset Stud was founded in 1997 by the purchase of ewes from Mr Rusty Short's Te Mahora Stud dispersal. Since then, ewes and ewe lambs have been purchased from leading Studs.

Our aim is to breed a sheep that has a fast growing, high yielding carcase with trouble free feet that suit Northland's environment.

The Manu Stud has been performance recorded on SIL since 2003.

Sale rams have all been muscle scanned by Chris Spark from WRS Scanning.

Scanning this year was carried out on the 26/04/2026 with very pleasing results. (Please note this is 2 months later than last year.) The average EMA for the 93 rams was 24.67 cm^2 and the average weight was 64.9kg. We have given each ram a score on a scale of 1 to 5 for intermuscular fat (IMF), 5 being very strong and 1 showing little sign of IMF. (Please note this is the opposite to last year.)

It is with great satisfaction that I present this year's line of rams. They are showing all of the attributes of a good fat lamb sire, early growth, plenty of loin and hindquarters, standing on very good bone and most have very good foot structure. Foot structure is something we have placed emphasis on in our breeding programme.

There will be photos of the sale rams in early November on bidr and on our Manu Poll Dorset Facebook page.

- All rams have been blood tested free from Ovine Brucellosis.
- Pedigrees are available on request.
- Minimum price for stud transfer is $2,000.00.
- Please note: This year all rams will be sold as singles in lot order.

BUYING ONLINE?

- This sale will be held as a HYBRID ON-FARM auction on bidr (bidr.co.nz).
- There will be online bidding and a livestream of the sale for bidders.
- All online purchasers must register with bidr through an account with a bidr partner agency before sale day.
- For help with signing up or registering, contact the bidr team on 0800 TO BIDR (0800 86 2437) or email enquiries@bidr.co.nz

Alternatively, contact your local bidr® representative:

Conditions of Sale

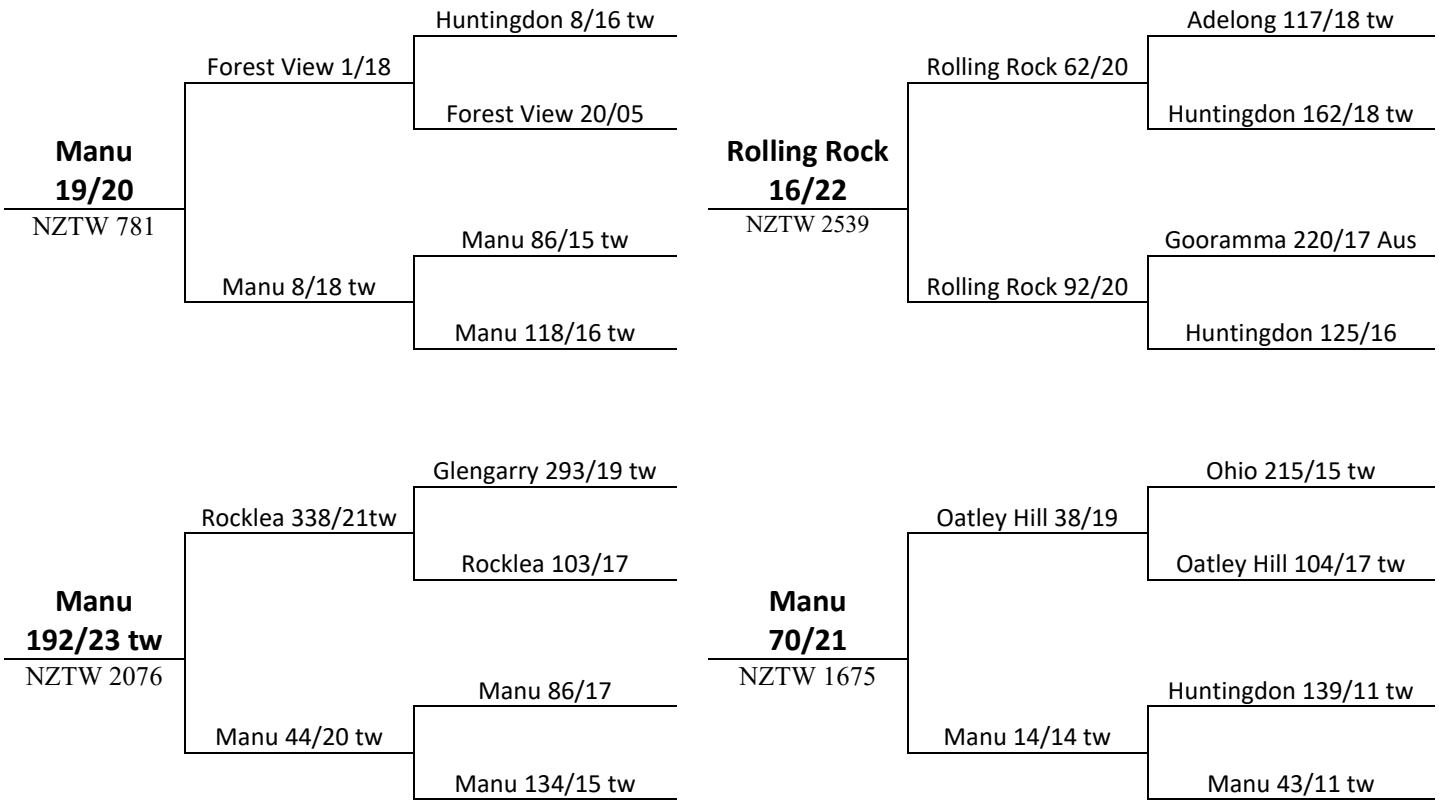

The sale will be conducted in accordance with the conditions of sale as set down by the Northland Stock & Station Agents Association; a copy of which will be exhibited at the sale.

Every lot will be the purchaser's responsibility at the fall of the hammer.

The description of the stock in this catalogue shall be deemed to be correct. No error, omission, or misdescription shall in any way invalidate the sale, or be made subject of any claim for compensation from either the vendor or the auctioneers.

All purchases are exclusive of GST.

Reference Sires

SIRES

Manu 19/20 - This ram has size, is structurally very sound, has a very good loin and is well filled out down the back legs. He has passed these attributes on to his progeny.

Manu 70/21 - This ram has depth and strength of carcase, standing on good bone, he is extra wide across the hips and loin and he has passed these traits on to his progeny. We exhibited him at the Royal Show in 2023, where he won the Sheep of the Show and then went on to win the Supreme Animal of the Show. He is also leaving very good foot shape.

Manu 192/23 – This ram was used as a lamb. I am impressed with his progeny, they are very consistent, exhibiting very good length and depth of carcase. Ranked number 1 Sire on SIL in my flock for growth. He is sired by Rocklea 338/21.

Rolling Rock 16/22 – I think this is an exceptional sire. I am very impressed with his lambs on their mothers. His lambs show early muscling and growth. His SIL figures are very good for both meat and growth. He was used in the CPT trial and three other Poll Dorset studs with very consistent results. Ranked number 1 sire on SIL in my flock for meat. I think he is one of those special stud sires that rarely comes along. He has 22 impressive sons in this year's catalogue.

Abbreviations:

WWBV = Weaning weight breeding value

NZTW = New Zealand terminal worth Index

Scan Wgt = Scan Weight (kg)

IMF = Intermuscular fat (1= Excellent, 5= Little sign of IMF)

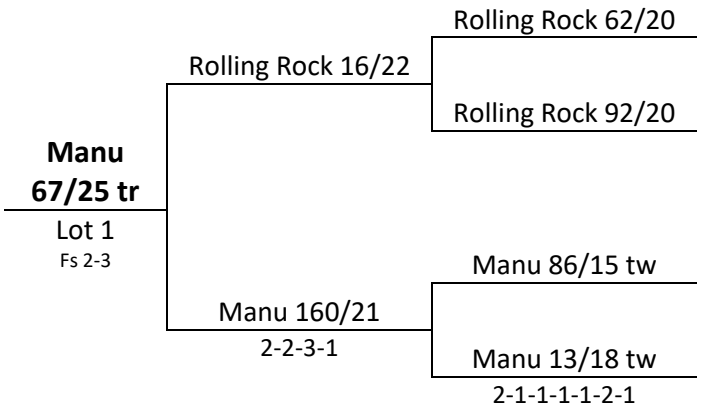

EMABV = EMA breeding value

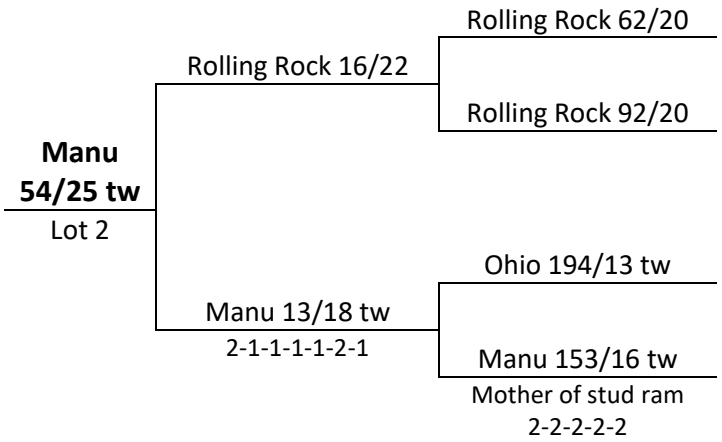

EMA/Wgt = EMA divided by weight

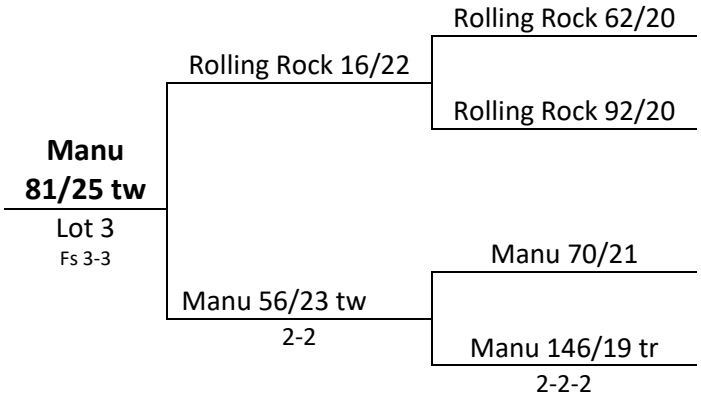

EMA = Eye muscle Area (cm^2)

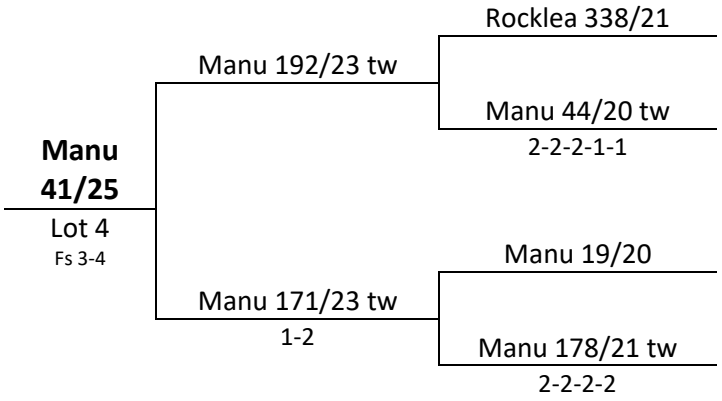

FS = Foot score
